

---

**Adhesion Promoters**

Titanates, Zirconates, Silanes

**Antioxidants**

Phenols

Phosphoric acid ester

**Catalysts, Crosslinkers and Chain Extenders**

Titanates, Zirconates, Silanes

**Corrosion Inhibitors**

Dinonylnaphthalene sulphonates

**Hydrophobing and Water-scavenging Agents**

Silanes

**Matting Agents**

„Green“ precipitated silica

Polyurethane beads

**Neutralising and Stabilising Agents**

Amino alcohols

Nitro paraffins

(modified) Castor Oil Derivatives

Polyacrylates

Polyamides

**Rheology Additives**

Polyethylenes

Polyurethanes

Conventional and Hydro Clays

Hybrids

**Wetting and Dispersing Additives**

Amino alcohols

Additional products based on renewable raw materials
